

Frederika Jenner

I have served for two years on DSEA Executive Board—an outstanding and dedicated group. I am committed to

Jenner

shared decision-making processes. I recognize the worth and power of all locals affiliated with this organization. As President of RCEA, the state's second largest teacher union. I know it is important for us to be well-informed and to assist in the governance of DSEA. Decisions made by DSEA have a lasting influence on the progress and status of all of our members.

As an active union member since 1972, I have served in many capacities. Our union is strong. The issues we face are important to our immediate and long-term future. Recent decisions made by DSEA Leadership and Executive Board guided us through some challenging situations that could have damaged our integrity and standing in the community. I am proud to be a member. I wish to continue to serve at the state level.
