

Vicki Seifred

I am asking for your support in allowing me to continue as a member of the Executive Board. It is vital

Seifred

that our voice be heard particularly during this time of change in public education. My experience includes:

- Secretary of Red Clay E.A.
- Member of Negotiations Team
- Building Representative
- District Grade Reporting Committee
- District Liaison Committee
- Participation in various rallies during the state financial crisis
- Involvement in various political campaigns (state, local and school board elections)

In my thirty years as an educator, I have worked in turn-around schools, high performing schools, a start-up charter school as well as high poverty schools. I believe this gives me a very unique perspective in terms of the reforms that are being proposed by our government. I can assure you that I will work hard to make sure our collective voices are heard.

Thank you for your support.
