

Your overall approach to reform

Approach:

1. **Vision:**
 - How will your LEA be different in 2014?
 - What will be different for students? For teachers and administrators?
2. **Priorities overview:**
 - What are your priorities? Why did you choose them (e.g., what evidence supports your choice)?
 - How do your priorities fit together?
3. **Goals and leading indicators:**
 - What are your overall and annual targets, aligned with state-level goals?
 - What indicators will you monitor to regularly assess your progress?
4. **Capacity to implement and sustain plans:**
 - What capacity does the plan require at the LEA- and school-level, and how will you build that capacity?
 - How will you sustain your plans after 2014?
5. **Success factors and possible risks:**
 - What systems, people, and processes will you use to ensure your plan's success?
 - How will you engage stakeholders?
 - What are possible risks, and how will you mitigate them?
